**50 WATERMILL LANE - GREAT NECK, NY 11021-4235**  
**516-487-7973 x 18**

**WATER AVAILABILITY LETTER**

ADDRESS: \_\_\_\_\_

This will acknowledge receipt of your request for the availability of water for the above captioned address filed on \_\_\_\_\_. Your application was brought to the attention of our Superintendent on \_\_\_\_\_.

The Water Authority of Great Neck North (hereinafter referred to as the "Authority") is operating under a New York State mandated restriction on groundwater pumpage. Our ability to service new customers and to continue serving present consumers will depend on the effectiveness of the Authority's Water Conservation Program and the cooperation of all Authority consumers.

The Authority has reviewed your request for water availability, as specified in your letter. This approval is given to the owners, for water use at the aforementioned premises and is not transferable. If the premises changes ownership now or in the future, the new owners must register with the Authority at 50 Watermill Lane, Great Neck. A new application will be required at that time. All plumbing water supply fixtures installed on the premises shall comply with or use less water than contained in the requirements of the New York State Plumbing Code, Building Construction, Article 9, Plumbing Requirements, part 900, Required Plumbing Facilities and New York State Environmental Conservation Law 15-0314 Powers and Responsibilities with respect to certain Plumbing Fixtures. Latest amendment thereto. The owner and contractor must utilize conservation fixtures wherever possible to help conserve water.

Per your request, the service described below is approved. An approved backflow prevention device must be installed in accordance with standard Authority requirements and drawings. Information, standard drawings and appropriate forms are available at our office.

- Irrigation Systems, Fire Suppression Systems, or Swimming Pool Approvals are subject to separate application and deposits.
- Water will not be used for air conditioning or for cooling purposes.
- A copy of the Authority's Water Conservation Plan is available at the Authority's offices.
